

Stericycle Medical Waste Disposal Service

Hybrid Offering	
Brief description	Within the Medical Waste Disposal Service program, Stericycle provides a complete system of products and services throughout the entire process of waste disposal in healthcare organisations.
Hybrid offering's industry	Healthcare
Company details	
Stericycle, Inc. www.stericycle.com	Stericycle is a full-service provider of infection control and compliance services. Founded in 1989 and based in Lake Forest, Illinois, the company operates in the USA, UK, Ireland, Canada, Mexico, Argentina, and Chile.
Company's industry	Healthcare
Country of origin	USA
Dimensions	
Product dimension	Stericycle products include among others soaps, sanitisers and disinfectants, exam gloves, gowns & robes, eyewear, face masks, gauze sponges and alcohol prep pads, mailback kits for mercury, dental amalgam and sharps, medical waste containers and liners, sharps containers. As part of the Medical Waste Disposal Service, Stericycle provides all necessary containers, then picks them up and safely treats and disposes of the medical waste. All containers are scanned at every point in the process, and online access to the manifests is provided.
Service dimension	The Stericycle Medical Waste Disposal Service provides complete custody documentation, which is essential for accountability and regulatory compliance of biohazardous materials. Through Bio Track (Stericycle's proprietary data management system), the amount of medical waste generated by each department in the client facility can be documented. The program is offered nationwide and pickup schedules are flexible. Also provided are staff training and education. A medical waste pickup can be scheduled online.
